- Numbers of projects carried out, funding agency, grant received

Research is the back bone of any academic institution. Research and Development is very essential for innovative experimentation of the knowledge acquired from the books. The growth of the academic institution is measured by the research oriented faculty that are working in the institution. In order to encourage and motivate the faculty and students towards the

research and development the institute has established a separate R&D consultancy and External Funded Project Cell. Encouraging Research orientation is crucial in two ways. Output of research becomes input for classroom teaching enhancing effectiveness of learning process. It provides a good opportunity to students who along with faculty can understand and dissect real life issues. The other important Area that the Institute incorporates in its Educational System is adequate interaction between Institutions and Corporate.
