

Research & Development Cell

Research is the back bone of any Academic Institution. Research and Development is very essential for innovative experimentation of the knowledge acquired from the books.

The growth of the Academic Institution is measured by the research oriented faculties that are working in the institution. In order to encourage and motivate the faculty and students towards the research and development, and to identify the funding agencies that support their research/projects, the institute has established a separate Research & Development Cell.

Faculty and students are motivated to write and publish research articles in various International and national journals. R&D cell also encourage the faculty and students to participate in various International/national conferences, workshops, and seminars etc.,.

Policies of the Research & Development Cell

- 1. Faculty members to obtain funding from national and international agencies by submitting research projects.**
- 2. Promote collaborative research activities with industries.**
- 3. Encourage participation of faculty in national and international conferences and forums and of repute; publication of research papers, monographs, etc.**
- 4. Support new and innovative areas of relevant research leading to product or process development.**
- 5. Promote establishment of industry sponsored research centres.**
- 6. Identify areas and create an environment for consultancy services to be taken up by different academic groups.**
