## Report on Environmental Awareness Program

The Nalla Narsimha Reddy Education Society's Group of Institutions - Integrated Campus organized an Environmental Awareness Program on 22<sup>nd</sup> June 2023 at 2.30 pm in the ground floor conference hall. The program aimed to create awareness among B.Tech.(ECE,CSE branch) and B.Pharmacy students about Green Chemistry for Sustainable development.

Around 200 students of NNRESGI attended the lecture with great enthusiasm. The lecture was delivered by Dr.Rashmi Trivedi, Professor of Chemistry successfully.

Green chemistry, a rapidly growing field focused on developing sustainable chemical processes and products

Green chemistry aims to minimize the use of hazardous substances, reduce waste generation, and promote energy efficiency throughout the entire lifecycle of chemical products.

Green chemistry offers a promising approach to address environmental and sustainability challenges in the chemical industry.

By incorporating green chemistry principles into research, education, and industrial practices, we can move towards more sustainable and environmentally friendly future.

This lecture enlighten environmental friendly, sustainable approaches and minimizing risks to human health and the environment while maintaining economic viability and efficiency.

I am Grateful to Dr.C.V.Krishna Reddy, Director - NNRG, Dr. J.G.Janardhan Raju, Dean - School of Engineering & Dr.E.Chandrashekhar,HOD,H&S for giving me the opportunity and investing their confidence in me as organiser.

The event contributed to fostering environmental-friendly and sustainable approaches within the campus community.

## TECH - SAMPRATHI 2K23 REPORT

### POSTER – PRESENTATION

### GO GREEN TO MAKE GLOBE GREEN

Poster Presentation, a part of the NNRESGI National Technical Symposium “Tech Samprathi 2k23”, was conducted successfully with 98 teams with 210 students from all branches from NNRG & Other institutions. The students participated enthusiastically.

With a theme “**Go Green to make Globe Green**” & Topics 1. Climate Change. 2. 7 R's for Waste Management 3.Green way for sustainable future

We made the participants think and grow concerned towards protecting the earth while engineering. The students participated enthusiastically.

This event provided a platform to the beginners as performers presenters not only this but the able students were given an opportunity to coordinate the conduct of the event which gave them practical exposure & experience of event coordinating

**Chief Guest** Shri K.Ramesh,MD,Deloitte,Hyderabad.visited & appreciate students skills,& efforts.

I am Grateful to Hon'ble Shri Nalla Narasimha Reddy, Secretary NNRG,Respected Dr.C.V.Krishna Reddy ,Director NNRG & Respected Dr. J.G.Janardhan Raju,Dean School of Engineering & convener of Tech Samprathi 2k23 for giving me opportunity,investing their confidence in me as event organizer & also I am thankful to Mr.E.Chandrashekhar, HOD,H&S & the complete organizing team of poster Presentation 2023.

Gender: Why should we study it?

Students were made aware of the purpose of studying gender through the first **chapter Gender: Why should we study it?** The class started with an introduction to all the three genders and the way they are defined. Students were encouraged to share their views regarding the topic in order to enhance their knowledge about the gender issues. They shared their experiences in groups and it was summarised and presented to the whole class by a representative of each group. Milestones in the history of gender equality were discussed in detail.

Socialization: Making women, making men

The aim of this session was to throw light upon how children are put through the process of socialization in order to fit into our society. Students were encouraged to speak about various ways in which they were trained to be men or women. They spoke about how some ideas were forced on them and how they responded. The differences between their generation and their parents' generation were also discussed in detailed. Students did role plays to portray the ideas mentioned in the discussions. Similarities and differences between men and women were spoken about.

Housework: The invisible labour

This session dealt with how women's work at home is overlooked and how housewives are considered to do nothing because they do not do a job for which they are paid. Students listed out each and every task their mothers performed at home and then read the long list of chores mentioned in the textbook so that they could realise how much work the women in their homes do on a daily basis. They read the poem Vantillu (The Kitchen) and discussed the plight of a mother who works at home for no wages at all. The poem says that women do all the work at home so that their children are comfortable. It is an opportunity for the students to think about all the sacrifices a mother makes which have gone unnoticed and are taken for granted.

Missing women: Sex selection and its consequences

This session dealt with one of the most inhuman ways of treating the woman in our Indian society. The students read about why there are fewer women than men in our country and the dangers it involves. They discussed in groups the various schemes created by the government to safeguard the girl child and encourage her in various fields of development. An awareness was created among them about how sex-selective abortions have been taking place despite the measures taken by the government to prevent them. The repercussions of dowry system were also discussed in detail in order to help the students understand how serious this common practice is and how urgent it is to eradicate it for the betterment of our society.

Knowledge: Through the lens of gender

The aim of the session was to bring the attention of the students to the history and development of the passing on of knowledge from the writers to the readers. The students looked at how knowledge given in the form of texts can be influenced by the personal experiences of the writers. It can be biased if the writer belongs to a small group in the society. The points of view of men differ from those of women depending on their upbringing and other aspects of their lives. A mix of all kinds of writers can enable the reader to get a full view of the information presented. Students shared their views on the books and authors in order to enrich the knowledge shared in the session.

Housework: The invisible labour

This session dealt with how women's work at home is overlooked and how housewives are considered to do nothing because they do not do a job for which they are paid. Students listed out each and every task their mothers performed at home and then read the long list of chores mentioned in the textbook so that they could realise how much work the women in their homes do on a daily basis. They read the poem Vantillu (The Kitchen) and discussed the plight of a mother who works at home for no wages at all. The poem says that women do all the work at home so that their children are comfortable. It is an opportunity for the students to think about all the sacrifices a mother makes which have gone unnoticed and are taken for granted.

Missing women: Sex selection and its consequences

This session dealt with one of the most inhuman ways of treating the woman in our Indian society. The students read about why there are fewer women than men in our country and the dangers it involves. They discussed in groups the various schemes created by the government to safeguard the girl child and encourage her in various fields of development. An awareness was created among them about how sex-selective abortions have been taking place despite the measures taken by the government to prevent them. The repercussions of dowry system were also discussed in detail in order to help the students understand how serious this common practice is and how urgent it is to eradicate it for the betterment of our society.

Knowledge: Through the lens of gender

The aim of the session was to bring the attention of the students to the history and development of the passing on of knowledge from the writers to the readers. The students looked at how knowledge given in the form of texts can be influenced by the personal experiences of the writers. It can be biased if the writer belongs to a small group in the society. The points of view of men differ from those of women depending on their upbringing and other aspects of their lives. A mix of all kinds of writers can enable the reader to get a full view of the information presented. Students shared their views on the books and authors in order to enrich the knowledge shared in the session.
