**A Report on Guest Lecture on**  
**APPLICATIONS OF GIS & REMOTE SENSING**

The Dept of Civil Engineering organized a Guest Lecture on Applications of GIS & Remote Sensing. Dr P R Reddy, Project Director, NRSC (Retd), Dept of Space, Govt of India had given a guest lecture on applications of GIS & Remote Sensing. The HoD-CE welcomed the guest and read out the bio data to the audience. He was thankful to the guest in spite of his busy schedule.

The guest started the session by explaining the concept of remote sensing and GIS applications in today's life style. GIS plays a major role in identifying major minerals, rocks, and other earth related elements. Gis and Remote Sensing both relate to each other and they are responsible for the development in present days. The guest also explained about the usage of GIS & Remote Sensing in defence, civil engineering, electrical engineering and other aspects.

The students have understood the concept very well and they are happy with the presentation. At last, the HoD thanked the guest and felicitated him.
