

REPORT ON WORKSHOP

Department of Pharmaceutical Analysis, NNR School of pharmacy has organized one day workshop on "One Day Hands on Training Workshop on Analytical Instruments" using the labs of Pharmaceutical Analysis department on "29-07-2016" with an intention to have a proper hands on training and knowledge on Analytical instruments like – HPLC, UV and Karl Fischer apparatus in the field of Pharmaceutical Analysis for B.Pharmacy IV year students. The objective of this workshop to inculcate that pharmaceutical chemical analysis is very important. Almost all commercial products are subject to some form of analysis to ensure quality and to determine the amounts of constituents and attempt to detect impurities that might be harmful or interfere with the uses of the product. Dr. Krishna Mohan Chinnala and E. Sushma acted as Convener and Co- Convener respectively. Dr. C.V. Krishna Reddy, Director, NNRG inaugurated the workshop and said that this type of workshops will give advanced practical knowledge to the students. E. Sushma, Assistant professor, explained about working of UV, HPLC and Karl Fischer Apparatus and their importance in Pharmaceutical industry with videos in seminar hall. Later experiments were performed on HPLC, UV and Karl fischer apparatus were carried on. Students utilized the facilities and infrastructure and got exposure at laboratory level.
