A Report on
Awareness of Modern Concrete and Expectations of Ultratech Cements
Ltd

Mr Siddique from Ultratech cement have visited Civil Engg Dept of NNRESGI to spread awareness of Modern Concrete and its expectations. HoD Dr G.S.Rao welcomed the guests and introduced about the hosts. He told that he session would be enjoyable.

Mr Siddique explained about the special concretes that are used in the recent days. He had shown the Self Compacting Concrete, Rapid hardening concrete, etc... videos to the students which is very much useful to the students.

He also suggested the students that to think more and gain knowledge on the concretes which may be useful for them in the future as a civil engineer.

The session ended with very much enthusiasm and the debate, which was between the speaker and the students, was interesting.

At last HoD thanked the guests and students were happy with the lecture.
