About NNRG

Nalla Narasimha Reddy Education Society (NNRES) was established in 2009 with an objective of providing world class Technical Education. NNRES started an Integrated Campus with multi disciplinary courses under the banner of Nalla Narasimha Reddy Education Society's Group of Institutions (NNRG). The Integrated Campus with its , School of Pharmacy, School of Engineering and School of Management Sciences (MBA) has been striving to scale the heights of excellence through the consistent efforts. This Institute is Approved by AICTE and PCI –New Delhi and affiliated to JNTU-Hyderabad.

**NNRG is accredited with NAAC, NBA
and**

Certified by ISO 9001: 2015

ABOUT SCHOOL OF PHARMACY

Nalla Narasimha Reddy School of Pharmacy (NNRSoP) was established in the year 2009, Offering B.Pharmacy and M.Pharm (Pharmaceutics & Pharmaceutical Analysis) courses. The NNRSoP intends to establish a system of Continuous Quality Improvement (CQI) processes that would evaluate the quality of education and training and improve the teaching-learning methods to ultimately lead the Institute to Excellence.

ABOUT APTI

Association of Pharmaceutical Teachers of India (APTI) - an association founded by the pioneers of Pharmacy education in India in 1966, has come a long way in creating better intercommunication and promotion of excellence in pharmacy education. Through its tailor-made mission and objectives, the association has provided a single platform in bringing together teachers of pharmacy education from all over the country. This has helped in the achievement of excellent standards and to develop new technological methods in pharmacy education through the exchange of views amongst the teaching members.

ABOUT THE WORKSHOP

Cheminformatics is the use of computational tools and techniques to ease and facilitate a range of problems in Chemistry. Molecular docking studies are used to determine the interaction of two molecules and to find the best orientation of ligand, which would form a complex with overall minimum energy. It is a vital tool in structural molecular biology and CADD that is computer-assisted drug design and successful docking methods search high- dimensional spaces effectively and use a scoring function that correctly ranks candidate dockings. It is thus imperative for all practitioners and educators in Medicinal Chemistry to be aware of the field.

Topics of the Workshop

- ❖ Fundamentals of Chemoinformatics.
- ❖ Molecular Docking.
- ❖ Virtual Screening.
- ❖ ADMET Prediction.

Who can Participate

All the **Teachers** and **Research Scholars** of **Pharmaceutical Chemistry**.

The Maximum number of participants is restricted to **30 only**.

Participation in all the sessions is compulsory to get the certificate.

Registration Fee

The registration fee for Faculty Member and Research Scholars will be **Rs.1000/-** (One Thousand Only).

Payment by Demand Draft / Net Banking /
