

Academic Year: 2019-20

Activity: Report on Industrial visit to RTTC- BSNL

Date: 20-09-2019

Report on Industrial Visit to RTTC-BSNL

As per the schedule in the Department Academic plan, III CSE students have attended an Industrial Visit to RTTC-BSNL on 17-09-2019. Total 87 students of CSE and 4 faculty members accompanied and facilitated the students during the visit.

Instructors/trainers who were assigned by the authorities of the industry have divided the students into 4 groups and given the session schedule and followed from time to time. Total four modules were addressed namely Mobile communications technology, Broadband communications, Optical fiber communications, switching networks and demonstrated using working components.

The session was concluded with Question- Answer session. Many of the students get clarified their doubts related to above functional modules and their integration towards the latest generations in mobile communications.

Student Feedback:

The students were much eager and enthusiastic during the visit in learning /adopting the new and advanced concepts in most thrusted area of data communication and computer networks. Most of the students expressed such visits are highly recommended for subsequent batches and requested the DAC to plan more of such visits in future.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Action Taken:

As per the feedback from students the PAC decided to plan more industrial visits related to the most advanced topics in mobile communication and related technologies like 5G wireless communication, wireless sensor networks ,ad-hoc sensor networks etc...
