

Department of Electronics and Communication Engineering

A Report on

“World Creativity and Innovation Day”

(20th April 2024)

NNRG stands as a beacon of excellence in higher education, dedicated to nurturing aspiring engineers, fostering innovation, and driving societal progress through cutting-edge research and education. With a rich history of academic achievement and a commitment to excellence, our college is at the forefront of shaping the future of engineering and technology.

The Electronics and Communication Engineering (ECE) Department is a vital pillar within our institution, dedicated to fostering innovation, advancing technology, and nurturing future leaders in the field of electronics and communication. This department plays a pivotal role in shaping the technological landscape and addressing the evolving needs of society in an interconnected world.

Department of Electronics and Communication Engineering has successfully organized “World Creativity and Innovation Day” for II & IIIB.Tech students on 20th April 2024. The primary objectives of World Creativity and Innovation Day at our organization are to enhance Skills in students by providing solutions to the most trending issues in terms of paper presentations and poster presentations, to improve student performance, to transfer knowledge to the students. The ECE Department boasts a team of highly qualified faculty members as judges who are actively engaged to encourage the students.
