Report on Alma connect

Date: 04.03.2026

**Title of the Program:** Alma Connect – Senior–Junior Interaction

**Date:** 04.03.2026

**Time:** 12:00 Noon

**Venue:** ECE Seminar Hall

**Resource Person:**

Mr. Shivaprasad Sevarthi (217Z5A0421)

(2021–2025 Batch Alumni)

Physical Design Trainee

Sandlogic Technologies Pvt Ltd

**Target Audience:** ECE Students ( III Year)

#### Objectives of the Program

- To strengthen alumni–student interaction
- To provide guidance on career opportunities in the semiconductor and VLSI industry
- To motivate students towards skill development and industry readiness

Venue: ECE Seminar Hall

#### Brief Description of the Program

The Department of Electronics & Communication Engineering organized “Alma Connect – Senior–Junior Interaction” on 04th March 2026 as part of alumni engagement and student development initiatives. The session was delivered by Mr. Shivaprasad Sevarthi, an alumnus of the department and

currently working as a Physical Design Trainee at Sandlogic Technologies Pvt Ltd. During the session, he shared his academic journey, preparation strategies, and experiences in entering the semiconductor industry. He explained the importance of VLSI design, physical design concepts. The session was interactive with students asking questions related to career paths, internships, interview preparation, and skill development, certifications, and continuous learning.

### Glimpses of Event

#### **Outcomes of the Program**

- Students gained awareness about career opportunities in the semiconductor and VLSI industry
- Students understood the importance of technical skill development and industry preparation
- Strengthened alumni connection with the department

#### **Conclusion**

The Alma Connect – Senior–Junior Interaction program was successfully conducted and proved to be highly informative and motivating for students. The department looks forward to organizing more such alumni interaction sessions in the future.
