Report on industrial visit on 13<sup>th</sup> of December.

The students of 2<sup>nd</sup> year ECE were given an opportunity to visit a to leading manufacturers in the field of Magnetics company on 13<sup>th</sup> of December .they were taken in a bus to a metronix located in Hyderabad.

Metronix is a to leading manufacturers in the field of Magnetics company. Initially they were given a flow chart of the different steps involved in manufacturing magnetic . that gave them brief review of the fastest growing electronics field company in embedded solutions , We involve in industrial products & project designing and development. Starting from concept and research. we help our customer from hardware designing, software development of prototype and bulk production.

There are different types of inductors ,line filters, Drum Core Driver Transformers , SMR Choke Transformer, Types Of Toroidal Choke Inductors manufacturing different steps. depending up on the usage that product is selected.
