

## **Department of Electrical and Electronics Engineering**

**Report on Guest Lecture by Dr. V. Kamaraju**

**on**

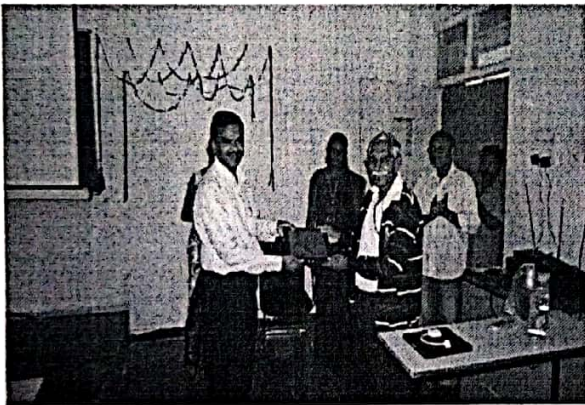

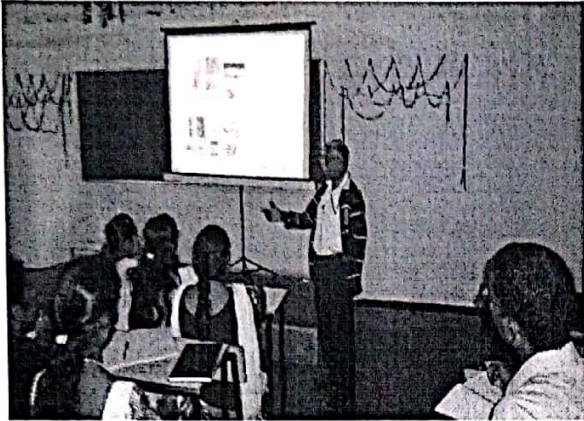

**High Voltage Direct Current Transmission.**

Nalla Narasimha Reddy Educational Society's Group of Institutions School of Engineering Department of Electrical & Electronics Engineering had organised a Guest Lecture on 17<sup>th</sup> August 2017. The Guest speaker, Dr V. Kamaraju represented the Rtd Principal, JNTU Kakinada. The guest arrived at 10.00 am and he was welcomed by Mr. T.C. Subramanyam, HoD & Associate Professor.

The guest was formally felicitated by Mr. T.C. Subramanyam, HoD & Associate Professor, Department of EEE with a floral Bouquet. The lecture was attended by staff and Students about 80 members. Mrs. K. Swathi, Assistant Professor, Department of EEE , introduced the speaker Dr V. Kamaraju represented the Rtd Principal, JNTU Kakinada. He gave a brief introduction about the High Voltage Direct Current Transmission. He discussed about the advantages of HVDC over AC, Types of DC links and Converter station Equipment. He gave an new era in high voltage transmission system both in AC and DC for the students.

The lecture was concluded by vote of thanks by Mr. . T.C. Subramanyam, HoD & Associate Professor, Department of EEE, NNRESGI. It was a very resourceful session and the students gave a very good feedback. It is good steps for students to ventilate their heart & came out from situation, after the lecture students have fresh mind they have got solution for their problems. Total 80 students were attended the lecture. Lecture was ended at 12.30 p.m. Every one left the hall with positive attitude towards life.

**Department of Electrical and Electronics Engineering**

Academic Year:2017-18

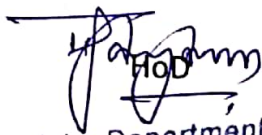

Semester:I

Activity: Guest Lecture

**Consolidated report and outcomes of the Guest lecture:**

1. The lecture was of great informative and success. It helps students to know about something new and prepare themselves for something innovative and new.
2. The guest lecture gave a clear insight regarding the high voltage transmission system.
3. The guest lecture focuses on the different phases of Transmission and Distribution network.
