

SCHOOL OF PHARMACY

REPORT ON

FIELD TRIP TO OSMANIA UNIVERSITY

The field trip to Osmania University was organized by IIC, NNRG on 31 st May 2024. It provides

- Provide students with hands-on experience and insights into research resources and facilities.
- Enhance knowledge about advanced research methodologies and tools.
- Foster academic collaboration and networking with researchers and faculty at Osmania University.

Details of the Visit

Arrival and Welcome

The group arrived at Osmania University at 10:00 AM and was greeted by the university's faculty and staff. A brief orientation was conducted to outline the schedule for the day and introduce the university's research capabilities.

Tour of Research Facilities

10:30 AM - 12:00 PM

The tour included visits to the following facilities:

- **Central Library:** Students explored the extensive collection of research journals, books, and digital resources available for academic research.
- **Laboratories:** Visits to various labs provided insights into the latest equipment and technology used in pharmaceutical and scientific research. Students observed ongoing experiments and discussed research projects with lab technicians.
- **Data Centers:** The data centers showcased the university's capabilities in handling and analyzing large datasets, crucial for modern research.

Interactive Session with Faculty and Researchers

12:00 PM - 1:00 PM

An interactive session with faculty and researchers from Osmania University was conducted, covering topics such as:

- The importance of multidisciplinary research.

- Opportunities for collaboration and internships.
- The role of innovation in advancing research methodologies.

Workshop on Research Methodologies

2:00 PM - 3:30 PM

A workshop focused on modern research methodologies was conducted, including:

- **Quantitative and Qualitative Research:** Understanding different research approaches and their applications.
- **Data Analysis Techniques:** Introduction to statistical software and data analysis tools.
- **Writing Research Papers:** Guidelines on structuring and writing effective research papers.

3:30 PM - 4:00 PM

The Q&A session allowed students to address any queries related to research practices, opportunities for future studies, and how to leverage research resources effectively. The university's faculty provided detailed answers and practical advice.

Departure

The visit concluded with a vote of thanks from Dr. Prasad Kumar, Dean of NNRG SOP, expressing gratitude to Osmania University for their hospitality and the enriching experience provided. The group departed at 4:00 PM, arriving back at NNRG SOP by 5:00 PM.

Impact and Feedback

The field trip was highly beneficial for students, providing them with:

- A better understanding of advanced research resources and tools.
- Inspiration to pursue research projects and higher studies.
- Opportunities for future collaborations and internships.

Student Feedback:

- “The visit was eye-opening, and seeing the research facilities firsthand was incredibly motivating.”
- “The workshop on research methodologies was particularly useful. It gave me a clear direction on how to approach my research project.”

Faculty Feedback:

- “The interaction with Osmania University's researchers was valuable for our students and will help them in their academic and professional journeys.”

Conclusion

The field trip to Osmania University was a successful endeavor that achieved its objectives of enhancing students' knowledge and experience in research. The exposure to advanced research facilities and methodologies has inspired participants to delve deeper into their academic pursuits and utilize the knowledge gained for their future careers.
