

## SKILL DEVELOPMENT PROGRAM ON MEDICAL CODING

In association with the **Telangana Academy for Skill and Knowledge (TASK)**, Dr. Naresh Dussa conducted an intensive **Medical Coding Training Program** for final-year students from **12th March 2026 to 14th March 2026**. The program was designed to provide students with practical exposure to the healthcare revenue cycle management (RCM) industry and equip them with industry-relevant medical coding skills.

### ABOUT THE TRAINER

Dr. Naresh Dussa is a distinguished healthcare professional, entrepreneur, trainer, and industry leader from Hanamkonda, Telangana, with over 12 years of experience in Medical Coding, Medical Billing, and Revenue Cycle Management (RCM). Throughout his career, he has demonstrated expertise in healthcare documentation, coding compliance, quality assurance, process optimization, workforce development, and healthcare operations.

Dr. Dussa began his career in the medical coding industry and progressively advanced into leadership roles through his commitment to excellence, technical expertise, and ability to build high-performing teams. His experience spans multiple specialties and healthcare projects, enabling him to develop a comprehensive understanding of the global healthcare revenue cycle ecosystem. Previously, he served as Director of A3RCM Healthcare Pvt. Ltd., where he was responsible for overseeing coding operations, team training, quality management, and client engagement. His leadership contributed significantly to organizational growth and operational excellence.

Currently, Dr. Dussa serves as the Chief Executive Officer (CEO) of Medeshine HealthTech, a Hyderabad-based medical coding academy dedicated to developing skilled healthcare professionals. Under his leadership, Medeshine offers industry-oriented training programs, skill-based certifications in collaboration with PMBA, innovative learning solutions, and placement support for aspiring medical coders and healthcare professionals.

### ABOUT THE TRAINING PROGRAM

During the three-day training program, Dr. Dussa introduced students to the fundamentals of medical coding, healthcare documentation, coding guidelines, career opportunities in the healthcare industry, and the evolving role of technology and automation in coding processes. Drawing from his extensive industry experience, he shared real-world insights, interview preparation strategies, and professional development guidance to help students transition successfully from academia to industry.

The training emphasized skill development, employability enhancement, and industry readiness, aligning with TASK's mission of empowering students with market-relevant competencies. Through interactive sessions, case studies, and career mentoring, Dr. Dussa inspired participants to explore opportunities in medical coding, healthcare analytics, and revenue cycle management.

This initiative reflects Dr. Dussa's continued commitment to bridging the gap between academic education and industry requirements, while supporting the development of a highly skilled healthcare workforce in India.
