

REPORT ON

WORLD AIDS DAY- 2025

As part of its health awareness initiatives Pharmacology Club of Nalla Narasimha Reddy(NNR) school of Pharmacy conducted an awareness program on **World AIDS Day on December 1st 2025**. The event aimed to educate students about HIV/AIDS and highlight the importance of prevention, early diagnosis, and compassionate care .

This year's theme announced by the World Health Organization (WHO) was **“Overcoming Disruption, Transforming the AIDS Response,”** emphasizing the need to strengthen global efforts to end the AIDS epidemic despite ongoing challenges.

The Program began with an opening address by one of the faculty member, followed by a seminar conducted by four II yr students. Each student presented a different aspect of HIV/AIDS.

- ❖ The **first student- K.Sindhu(247Z1R00A0)** gave an Introduction to AIDS, structure of HIV and nature of HIV etc.,
- ❖ The **second student- P.Ganothri(247Z1R0068)** covered the Pathophysiology of AIDS disease.
- ❖ The **third Student - V.Poojitha(247Z1R0092)** described the signs and symptoms and modes of transmission of disease.
- ❖ The **fourth student – Y.Eshitha(247Z1R0096)** explained the treatment and prevention.

Following the students' presentations, Faculty member Mrs. T. Sunanda, Assistant Professor, Dept. of Pharmacology, SOP-NNRG delivered an insightful talk on the importance of World AIDS Day. She stressed the need for awareness, compassion, removal of stigma, and the responsibility of future healthcare professionals in supporting and educating the community about HIV/AIDS.

The Program was attended by 58 I-yr students and 70 II yr students of B.Pharmacy total 128 number of students were actively participated, along with faculty members of the School of Pharmacy.

The program concluded with an interactive session, where students asked questions and discussed ways to contribute to AIDS prevention efforts. The event was informative, meaningful, and successfully enhanced awareness among attendees.

Conclusion:

Overall, the World AIDS Day program conducted by the Pharmacology Club was a meaningful and educational experience, successfully promoting awareness and supporting the global mission of transforming the AIDS response.
