

## **REPORT ON INDUSTRIAL VISIT TO PROGENERICS PHARMA PVT. LTD.**

The School of Pharmacy, Nalla Narasimha Reddy Education Society's Group of Institutions (NNRG), organized an industrial visit to Progenerics Pharma Pvt. Ltd. for the students of **IV Year B.Pharmacy – Section A** on **30th December 2025**. The visit was arranged to provide students with practical exposure to pharmaceutical manufacturing operations and quality systems followed in the pharmaceutical industry.

### **Accompanying Faculty**

The students were accompanied by:

- Mrs. T. Sunanda
- Mrs. T. Akhila

### **Objectives of the Visit**

The objectives of the industrial visit were:

- To provide practical exposure to pharmaceutical manufacturing processes.
- To understand the functioning of various departments in a pharmaceutical industry.
- To bridge the gap between theoretical concepts and industrial practices.
- To familiarize students with Good Manufacturing Practices (GMP) and quality systems.
- To create awareness about career opportunities in the pharmaceutical industry.

### **Visit Proceedings**

The students were welcomed by the company representatives and provided with an overview of Progenerics Pharma Pvt. Ltd., its products, manufacturing facilities, and quality standards. During the visit, students were taken through various departments including:

## **Production Department**

Students observed different stages involved in pharmaceutical manufacturing and learned about production planning, process controls, equipment operation, and adherence to Good Manufacturing Practices (GMP).

## **Quality Control (QC) Department**

The QC team demonstrated analytical testing procedures used for raw materials, in-process samples, and finished products. Students were introduced to various analytical instruments and quality testing methodologies.

## **Quality Assurance (QA) Department**

Students learned about documentation practices, validation procedures, quality management systems, standard operating procedures (SOPs), and regulatory compliance requirements.

## **Warehouse Department**

The warehouse team explained material receipt, storage, dispensing procedures, inventory management, and distribution practices followed to maintain product quality and traceability.

The industrial experts also highlighted the importance of regulatory compliance, safety practices, and quality management in pharmaceutical manufacturing.

## **Learning Outcomes**

The visit enabled students to:

- Understand pharmaceutical manufacturing operations.
- Gain practical knowledge of QA, QC, Production, and Warehouse activities.
- Learn about GMP, documentation, and regulatory requirements.
- Appreciate the importance of quality systems in pharmaceutical industries.
- Explore employment opportunities in different industrial departments.

## Conclusion

The industrial visit to Progenerics Pharma Pvt. Ltd. provided valuable practical exposure to IV Year B.Pharmacy Section A students. The visit enhanced their understanding of pharmaceutical industrial operations and quality systems. The School of Pharmacy expresses its gratitude to the management and staff of Progenerics Pharma Pvt. Ltd. for facilitating the visit and sharing their expertise with the students.
