

REPORT ON INDUSTRIAL VISIT TO PROGENERICS PHARMA PVT. LTD.

The School of Pharmacy, Nalla Narasimha Reddy Education Society's Group of Institutions (NNRG), organized an industrial visit to Progenerics Pharma Pvt. Ltd. for the students of **IV Year B.Pharmacy – Section B** on **29th December 2025**. The visit aimed to provide students with first-hand exposure to pharmaceutical manufacturing practices, quality assurance systems, and industrial operations.

Accompanying Faculty

The students were accompanied by:

- Mrs. V. Kavitha
- Mrs. V. Kalyani

Objectives of the Visit

The objectives of the visit were:

- To expose students to real-time pharmaceutical manufacturing environments.
- To understand the role and functioning of different industrial departments.
- To familiarize students with industrial quality standards and GMP requirements.
- To enhance practical knowledge related to pharmaceutical production and quality management.
- To provide industry-oriented learning experiences.

Visit Proceedings

Upon arrival, the students received an introduction to the company's operations, manufacturing capabilities, quality policies, and regulatory compliance requirements.

The students visited the following departments:

Production Department

The manufacturing process, equipment operation, in-process controls, and production workflows were explained in detail. Students observed the implementation of GMP practices during manufacturing activities.

Quality Control (QC) Department

Students were introduced to analytical testing procedures performed on raw materials, intermediates, and finished products. They gained knowledge about laboratory operations and quality evaluation techniques.

Quality Assurance (QA) Department

The QA personnel explained documentation control, validation processes, quality audits, deviation management, and regulatory compliance procedures followed by the organization.

Warehouse Department

Students learned about storage conditions, material handling procedures, inventory control systems, and distribution practices adopted to ensure product quality and traceability.

The company experts also interacted with students regarding industrial expectations, professional skills, and career opportunities in the pharmaceutical sector.

Learning Outcomes

The visit helped students to:

- Understand pharmaceutical manufacturing and quality systems.
- Gain exposure to industrial practices and GMP compliance.
- Learn the roles and responsibilities of QA, QC, Production, and Warehouse departments.
- Develop industry-oriented knowledge and professional awareness.
- Understand career prospects in pharmaceutical industries.

Conclusion

The industrial visit to Progenerics Pharma Pvt. Ltd. was highly informative and beneficial for IV Year B.Pharmacy Section B students. The visit provided valuable practical exposure to pharmaceutical industrial operations and enhanced their understanding of quality and regulatory requirements in the pharmaceutical sector. The School of Pharmacy expresses its sincere gratitude to the management and technical staff of Progenerics Pharma Pvt. Ltd. for providing an excellent learning experience to the students.
