

REPORT ON SEMINAR

School of Pharmacy organized a 'Seminar' on "Clinical Research and its opportunities" for B.Pharm and M.Pharm students on at 11.00AM in NNRSOP seminar hall. A Senior scientist of clinical research Dr. Anand Swarup, from Vircho Biotech Pvt Ltd, Hyderabad acted as Resource Person for the seminar. In the seminar Dr. Swarup explained in detail about the clinical trials, its phases, regulations to be followed. He also explained about the ethical and other precautions to be taken during the clinical trials. He asked the students to improve their knowledge in all the subjects in general and Pharmacology in particular to become a clinical Pharmacist. He also advised the students to get familiarize with Biostatistics, which is very much useful for them in their career in clinical research. He also explained the softwares used in clinical research and advised students to learn about SAS, CDM, Win-Nonlin, Prism etc. He addressed the students and advised to improve their knowledge and skills here in the college during the graduation only. All the teaching staff, students of B.Pharm and M.Pharm year students attended the seminar.
