REPORT ON

INDSUTRIAL VISIT TO STRIDE ORGANICS - 2026

Location: Industrial Visit to Stride Organics, Kondapur, Ghatkesar
Date of Visit: 12 October 2026
Class: B.Pharmacy IV Year – Section B
Total Number of Students: 44

Faculty Coordinators:

- T. Akhila, Assistant Professor
- V. Kalyani, Assistant Professor

NNRG School of Pharmacy conducted an industrial visit to Stride Organics, Kondapur, Ghatkesar, on 12 October 2026 for the B.Pharmacy IV Year, Section B students. A total of 44 students participated in the visit, accompanied by T. Akhila and V. Kalyani, Assistant Professors.

The industrial visit was organized to provide students with practical exposure to industrial manufacturing units and equipment and to help them understand the application of theoretical knowledge in a real-world industrial environment.

Objectives of the Visit

The main objectives of the industrial visit were:

- To familiarize students with industrial manufacturing units and their operations.
- To provide practical exposure to various types of equipment and machinery.
- To understand the basic stages involved in manufacturing processes.
- To create awareness of workplace safety, equipment handling, and standard operating procedures.
- To bridge the gap between classroom learning and practical industrial applications.

Activities and Observations

During the visit to Stride Organics, students had the opportunity to observe the manufacturing units and various types of equipment used in industrial operations. This exposure helped them understand the functioning of industrial facilities and the role of equipment in manufacturing processes.

The students gained insights into the importance of equipment operation, process monitoring, cleanliness, workplace safety, and adherence to established operating procedures. The faculty coordinators guided the students throughout the visit and helped them relate their academic knowledge to practical industrial applications.

Learning Outcomes

The industrial visit enabled students to:

1. Develop a better understanding of industrial manufacturing environments.
2. Gain practical exposure to manufacturing units and industrial equipment.
3. Understand the application of theoretical concepts in industrial settings.
4. Recognize the importance of safety measures, quality practices, and standard operating procedures.
5. Improve their awareness of the technical knowledge and professional skills required in the pharmaceutical industry.

Conclusion

The industrial visit conducted by **NNRG School of Pharmacy to Stride Organics, Kondapur, Ghatkesar, on 12 October 2026** was a valuable educational experience for the 44 B.Pharmacy IV Year, Section B students.

The visit provided students with practical exposure to manufacturing units and industrial equipment, helping them connect theoretical learning with real-world industrial practices. Such initiatives contribute to students' technical knowledge, practical understanding, and professional development.

The visit was conducted under the guidance of **T. Akhila, Assistant Professor, and V. Kalyani, Assistant Professor**, NNRG School of Pharmacy.
