REPORT ON

WORLD HEPATITIS DAY- 2026

In observance of **World Hepatitis Day July 28th 2026**, the Pharmacology Club at the School of Pharmacy organized an educational seminar to raise awareness about viral hepatitis. Aimed at bridging the knowledge gap between senior and junior students, the event brought together final-year and first-year pharmacy students. Guided by the global 2026 theme, **"Hepatitis: Let's Break It Down,"** the session focused on dismantling the complexities surrounding the disease, covering everything from basic liver function to advanced pharmacotherapy.

The core of the event was a comprehensive, multi-disciplinary seminar presented by five final-year pharmacy students. Each speaker broke down a specific clinical aspect of hepatitis to provide a complete picture of the disease:

- The **first student(M.Sathwika-237Z1R0057)--**Physiology of the Liver
- The **second student (M.Sakshitha-237Z1R0063)**---Pathophysiology of Hepatitis
- The **third student (C.Ramya-237Z1R0015)---**Clinical Diagnosis
- The **fourth speaker(P.Vaishnavi-237Z1R0076)**---Treatment and Pharmacotherapy
- The **final speaker(B.K.Swamy-237Z1R0010)**--- Prevention and Public Health

The Program was attended by 63 IV B.Pharmacy students and they were actively participated, along with faculty members of the School of Pharmacy.

The lecture concluded with an interactive Q&A session where students clarified doubts regarding modern oncological treatments and palliative care. The event was highly successful in enhancing the technical knowledge of the students and instilling a sense of professional responsibility toward public health.

Conclusion:

The "Hepatitis: Let's Break It Down" seminar successfully fostered an environment of peer-led learning. The first-year students gained a foundational, clinical perspective on a major global health issue, while the final-year presenters demonstrated exceptional research and communication skills. The event concluded with an interactive Q&A session, solidifying the Pharmacology Club's commitment to advancing public health awareness within the student body.
