ON

“Bio Pharma: Understanding the Scope for Industry”

The School of Pharmacy, Nalla Narasimha Reddy Group of Institutions, organized an insightful guest lecture titled “Bio Pharma: Understanding the Scope for Industry” in collaboration with R-Tech Solutions by Mr. Rohith Suragoni, Founder & Entrepreneur, R Tech Solutions Pvt. Ltd Hyderabad on 09.01.2026. The session aimed to provide pharmacy students with an understanding of the rapidly growing biopharmaceutical industry and the diverse career opportunities available within the sector.

Overview of the Pharmaceutical and Biopharmaceutical sectors.

- Scope and growth opportunities in Bio-Pharma industries.
- Industrial processes involved in the development and manufacturing of biopharmaceutical products.
- Essential skills required for employment in Pharma and Biotech industries.
- Career opportunities in Quality Control (QC), Quality Assurance (QA), Production, Research & Development (R&D), Regulatory Affairs, and Pharmacovigilance.
- Importance of internships, industrial training, and certification programs.

The speaker emphasized the need for continuous learning, technical competency, communication skills, and practical exposure to meet industry expectations. The lecture witnessed enthusiastic participation from undergraduate pharmacy students. Students actively interacted with the speaker, raising questions regarding career pathways, industry requirements, and opportunities in the Bio-Pharma sector. The interactive discussion helped clarify students' doubts and enhanced their understanding of industry practices.

At the end of the session, students were able to:

- Understand the structure and functioning of the Bio-Pharma industry.
- Identify various career opportunities available in pharmaceutical and biotechnology sectors.
- Recognize the importance of industry-oriented skills and certifications.
- Gain insights into current industry trends and future prospects.
- Develop awareness about internships and training programs that enhance employability.

The guest lecture on “Bio Pharma: Understanding the Scope for Industry” was highly informative and beneficial for the students. The session successfully provided valuable insights into the pharmaceutical and biopharmaceutical industries while highlighting the importance of skill development and practical exposure. The lecture served as an excellent platform for students to understand industry expectations and prepare themselves for successful careers in the Pharma and Bio-Pharma sectors.
