REPORT ON

2nd NATIONAL PHARMACOLOGY DAY- 2026

On the 17th of August, the Pharmacology Club at the School of Pharmacy, NNRG, proudly hosted the **2nd National Pharmacology Day.** This day is observed nationally to commemorate the birth anniversary of Col. Sir Ram Nath Chopra, the pioneer and "Father of Indian Pharmacology." The event was designed to celebrate the vital role of pharmacology in the medical sciences and to inspire the next generation of pharmacy professionals.

The core theme for the event was **"Fostering Drug Discovery for Better Health."** The primary objective was to highlight the critical importance of pharmaceutical research, innovation, and the rigorous process of drug discovery in shaping a healthier future and combating emerging global health challenges.

Event Highlights: Student Seminars
The centerpiece of the celebration was an interactive seminar session led by the student body. Ten dedicated members from the B.Pharmacy 2nd-year class took the stage to present insightful seminars directly aligned with the event's theme.

During their presentations, the students effectively covered:

- **The Drug Discovery Pipeline:** Breaking down the complex journey of a drug from initial laboratory research to clinical availability.
- **Innovative Research:** The role of modern scientific advancements and technologies in accelerating the identification of new therapeutic agents.
- **Patient-Centric Outcomes:** How fostering continuous drug discovery directly translates to better, safer, and more targeted healthcare solutions for patients.

Conclusion
The 2nd National Pharmacology Day at SOP NNRG was a resounding success. The active participation of the 2nd-year students demonstrated their strong grasp of core pharmacological concepts and their enthusiasm for the pharmaceutical sciences. By focusing on "Fostering Drug Discovery for Better Health," the Pharmacology Club successfully cultivated a spirit of scientific inquiry and research orientation among the students, making the occasion both highly educational and deeply inspiring.

Celebrates

2nd NATIONAL PHARMACOLOGY DAY

17th AUGUST 2026

In Memory of

Col. R. N. Chopra

Father of Indian Pharmacology

Col. R. N. Chopra was a pioneer and visionary who laid the foundation of modern Pharmacology in India. His dedication to education, research and the well-being of society continues to inspire generations of pharmacists and scientists.

THEME

"Fostering drug discovery for better health"

CLINICAL TRIALS

Advancing medicines through scientific rigor and patient care.

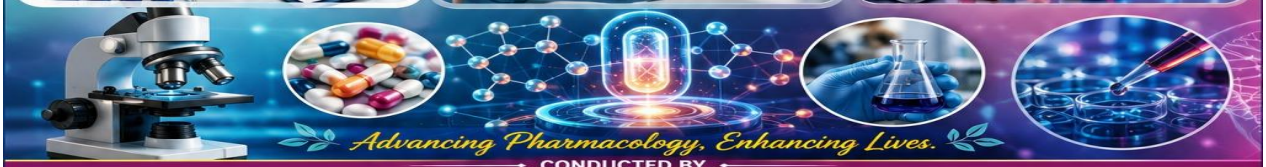

EXPERIMENTAL ANIMALS

Ethical research for understanding drug action and improving human health.

DRUG DISCOVERY & DEVELOPMENT

From discovery to delivery – innovating for a healthier tomorrow.

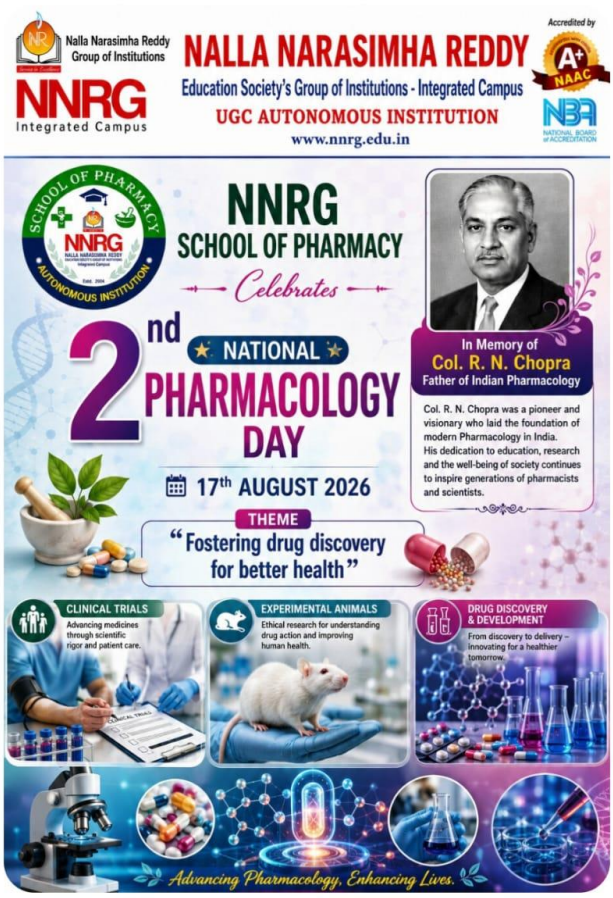

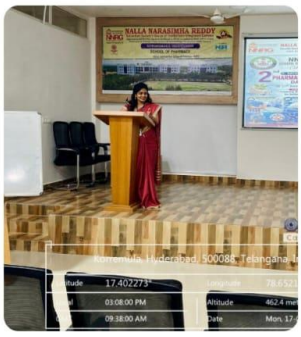

Advancing Pharmacology, Enhancing Lives.
