

REPORT ON PHARMA ANVESHAN PROGRAM

On 13.03.2026 School of Pharmacy, NNRG, successfully conducted the **Pharma Anveshan Program** for III and IV Year B.Pharmacy students. The program was organized with the objective of encouraging students to develop innovative research ideas, enhance their scientific temperament, and understand the importance of pharmaceutical research in healthcare and drug development.

Objectives of the Program

- To promote research culture among pharmacy students.
- To encourage innovative thinking and problem-solving skills.
- To provide exposure to pharmaceutical research methodologies.
- To motivate students to participate in national-level research competitions and scientific events.
- To enhance presentation and communication skills.

Program Highlights

The session began with a welcome address by the faculty coordinators, who emphasized the significance of research and innovation in pharmaceutical sciences. Students were introduced to the concept of **Pharma Anveshan**, a platform that encourages young researchers to identify healthcare challenges and propose innovative pharmaceutical solutions.

Student Participation

Students from III and IV Year B.Pharmacy actively participated in the event. They demonstrated enthusiasm in presenting innovative concepts and engaging in scientific discussions. The program served as an excellent platform for knowledge sharing and collaborative learning.

Outcomes of the Program

- Increased awareness about pharmaceutical research opportunities.
- Enhanced understanding of research methodology and scientific writing.
- Improved presentation and analytical skills among students.

- Encouraged students to pursue innovative projects and publications.
- Motivated participants to contribute towards healthcare advancements through research.

Conclusion

The Pharma Anveshan Program was highly informative and beneficial for III and IV Year B.Pharmacy students. The event successfully fostered a research-oriented mindset and inspired students to explore innovative solutions to pharmaceutical and healthcare challenges. The School of Pharmacy, NNRG, remains committed to promoting research excellence and nurturing future pharmaceutical scientists.
