VISION AND MISSION OF THE INSTITUTE

VISION

To be a premier institution ensuring globally competent and ethically strong professionals.

MISSION

1. To provide higher education by refining the traditional methods of teaching to make globally competent professionals.
2. To impart quality education by providing the state-of-the-art infrastructure and innovative research facilities.
3. To practice and promote high standards of professional ethics, transparency, and accountability.

VISION AND MISSION OF THE DEPARTMENT

VISION

To produce competent global healthcare professionals with excellent knowledge of Pharmaceutical Sciences, enabling them to develop and provide quality medicines to society

MISSION

- To impart high-quality education and training in interdisciplinary Pharmaceutical Sciences.
 - To imbibe knowledge of Pharmacy Practice and serve society while adhering to ethical principles.
- To provide industrial exposure in the production of quality medicines through knowledge of research and development

ABOUT THE SCHOOL:

The School of Pharmacy emerged in 2009, an amassed an incredible reputation for the provision of high-quality educational services to graduate and post-graduate students.

We strive hard to impart pharmaceutical skills to our students, by resorting to highly focused, in-depth and adaptive coaching. The incredible teaching expertise and state-of-the-art facilities at our school ensure that they are provided with the finest of hands-on experience. Our emphasis on maintaining eminently skilled teaching staff and sophisticated infrastructure has led to the overwhelming success of our students.

The innate skills of our faculty members are evident in the coherent explanation of topics in the classroom so that the students can interpret and understand the subjects magnificently. Due to this sterling coaching in curricular, co-curricular and extra-curricular activities, our pharmacy students earn perfection in all aspects, which is required for them to propel in their careers.

The special care we take on the upkeep of laboratories, enable them to participate in a wide variety of experiments, which boost their academic performances as well. Due to this impeccable practical experience, they can understand the industrial requirements, and offer highly valuable services to the pharmaceutical firms. The commencement of colossal research activities in the campus, lends its hand in shaping up the students to meet the criteria in the real time conditions.

On the top of providing classroom and practical coaching, we conduct different programs for the skill development of the students. Various skills are required to sustain the strong competition in the market, along with the stellar performance in the academics. Therefore, we organize the respective events for the students, which focus on elevating their communication skills, soft skills, etc. The exclusive coaching for earning jobs in the campus placements is also offered at our institution

Chief Editor's Message

Pharmacy course features a responsible and respectable stand in society, and the requirement of skilled Pharmacists is inevitable, to meet medical needs. We understand the importance of this course and implement futuristic coaching for the evolution of our students into fine professionals. A research-based approach yields formidable results for the talent accession of the students, and we follow it systematically in the academic proceedings. The exceptional knowledge earned due to the involvement in the pharmaceutical experiment, raises the skill level of the students formidably. On the top of imparting pharmaceutical knowledge, we emphasize vivaciously on enlightening the students about their duties towards society. The pharmacy professionals should interpret the medical requirements of the people precisely, and provide the needed medications.

Dr. Chinnala KM

SALIENT FEATURES OF THE SCHOOL OF PHARMACY

- Well-equipped state-of-the-art laboratories
- Well-stocked Library
- Well-furnished classrooms
- Virtual Pharmacy
- Computer Center
- English Communication Lab
- Sprawling campus on 12 Acres with green lawns & Play Grounds.
- Indoor stadium for sports and games.
- Research activities on campus.
- Guidance programs for higher education, GPAT, NIPER, etc
- 100% Placement Assistance.
- Medicinal Plant Garden.
- CCSEA Approved Animal House.
- Dispensary

SEMINARS & GUEST LECTURES

- Mr. Dass Kammuluri, Assistant Director of Drugs Control Administration has delivered a guest lecture on the analysis of drug laws and cases filed by drugs inspectors. This lecture is aimed at providing an in-depth understanding of the various drug laws and the implications of these laws on society. The lecture will also provide an opportunity to analyze case studies related to drugs and understand how drugs inspectors investigate cases related to drug abuse and misuse. This session will provide participants with a comprehensive understanding of the legal framework surrounding drugs along with practical insights into handling cases involving drugs, the students of B.Pharmacy IV year 51 students on 28th December 2022.

- A Career Guidance session was held for the 51 students of B. Pharmacy IV year by Ch. Bhargav alumni of 2011-15 batch. The session was organized to provide useful guidance and advice to the students on their career paths and future opportunities. The participants were provided with valuable insights into various fields in the pharmaceutical industry, along with practical tips on how they can make informed decisions about their career paths. The session also aimed to help the students understand how their current academic pursuits can be relevant in their future professional lives 01.04.22

- To explore and expand the career opportunities in the field of Molecular Modelling, a special Career Awareness Program was featured by Dr. I. Bharath Kumar, Proprietor / CEO of Chem Cloud Solutions! During this program, Dr. Kumar has discussed various career opportunities available in Molecular Modelling today and how to make the most of them. He also provided valuable insights into how to stay ahead of the competition and develop a successful career path in this field. That was an amazing opportunity to gain valuable insights from an industry expert! By the 51 students of final years on 19.12.2022.

- Mr. Career Rajendra from XCEL CAREER introduced final year the students with the Professional Education which has been constituted to undone the existing vacuum of quality trained resources/Professionals by being a pivotal link between Aspirant and Industry like Core Industry Experience Producing ,Multi Skilled Professional's Industry

Expert Trainers, Curriculum, On Job Practical Trainings,

WORKSHOPS/FDPS

- The one-day national workshop conducted by NNRG School of Pharmacy on “CDM” was organized by Master’s Academy, Dilsukhnagar. The faculty of NNRG and 51 students of B.Pharmacy IV participated in the workshop. This workshop was a great opportunity for students to get an insight into the world of Clinical Data Management (CDM). The faculty members presented their research papers and discussed the importance of CDM in clinical trials. They also shared their experiences and expertise with the participants. The workshop concluded with an interactive session where participants asked questions and exchanged ideas on 12.11.2022

- The School of Pharmacy recently organized a one-day workshop on Pharmacovigilance, Clinical Data Management, Medical Coding, and Clinical SAS. This workshop was

attended by pharmacists, clinical data managers, medical coding, and Clinical SAS professionals from across the country. The aim of this workshop was to provide an in-depth understanding of the various aspects related to these fields and equip participants with the knowledge and skills necessary for the successful implementation of these processes in their respective organizations on 20.10.2022

INDUSTRIAL INTERNSHIPS / VISITS / FIELD TRIP

"Industrial visits gives exposure to the technical field"

- The B.Pharm IV year students had an industrial visit to Progenerics Pharma Pvt. Ltd. This visit was in the presence of faculty members B. Krishna and A.Sahithi, and it will be a great opportunity for the students to gain first-hand knowledge about the pharmaceutical industry and its operations. The visit provided a platform for the students to understand how pharmaceutical companies handle different production processes in their factories, as well as get familiar with the latest technologies used in this field. They also learned about various quality control measures that are implemented in such factories and discovered how these procedures ensure that only safe and effective products reach the market. This industrial training is sure to be an invaluable experience for all of them, which they can use later on in their professional lives when they enter into this field of work from 15.12.2022 to 16.12.2022.

- On 28th December 2022, a group of 51 students of final years from Nalla Narasimha Reddy College has visited Strides Organics Pvt. Limited, is one of the leading organic product manufacturing companies in India. This industrial visit is an opportunity for students to explore the production process and gain insight into the working environment of a top-notch industry. The visit also helped them to understand how this company has been able to combine both traditional methods and modern technologies to produce high-quality organic products. The students will get a chance to interact with professionals from different departments and learn about the use of advanced technologies in their daily operations. This industrial visit ensured an enriching experience for all participants, as they get a chance to observe and understand how this company is leading the organic product manufacturing industry in India.
