

**DEPARTMENT OF CIVIL ENGINEERING**

08/10/2020

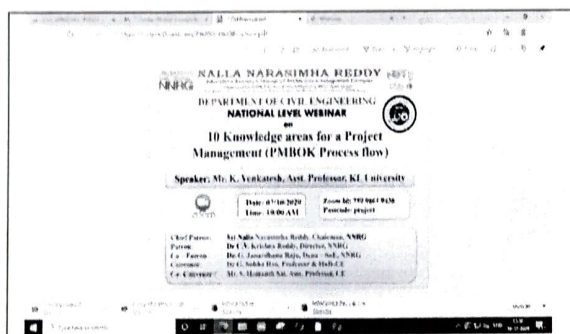

**A report on National Level Webinar on  
10 Knowledge areas for a Project Management (PMBOK Process flow)**

The department of Civil Engineering has conducted a National Level Webinar on 07/10/2020 at 10.00 AM through Zoom Platform on the topic 10 Knowledge areas for a Project Management (PMBOK Process flow). The speaker is Mr. K. Venkatesh, Assistant Professor, Dept of Civil Engineering, KL University.

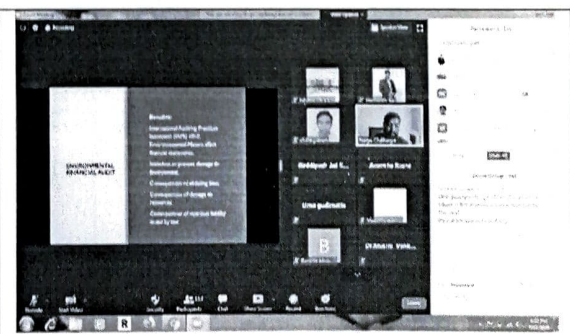

HoD introduced the speaker to the students at the start of the lecture and the speaker started his lecture covering the fundamentals of the project management. He has enlightened few points about the management skills that are necessary for a project to be completed successfully in time.

The speaker has outlined 10 knowledge areas for a project management which included the start to end of each and every project covering various steps that are involved in running a construction project, delay in project time, lack of materials while construction, increase of cost of materials while the construction is under progress.

The speaker has cleared the queries that are asked by the students after the lecture is completed. HoD- CE, Dr G. Subba Rao has thanked the speaker for sparing his valuable time for delivering the lecture to the students and sharing his knowledge.
