

**DEPARTMENT OF CIVIL ENGINEERING**

19/07/2020

**A report on International Level Webinar on  
 Road Safety Considerations for Indian Traffic Conditions**

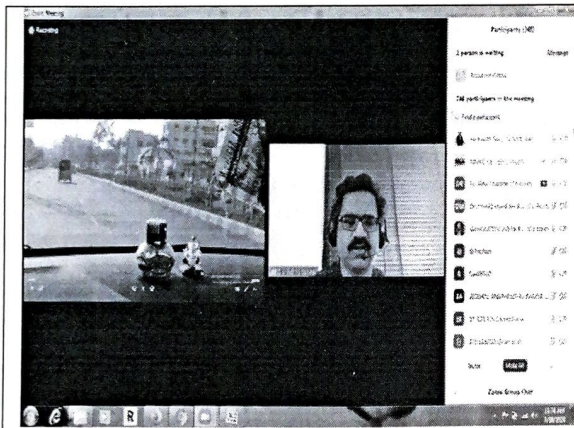

The Department of Civil Engineering has conducted an International Level Webinar on 18/07/2020 at 10.00 AM through Zoom Platform on the topic “Road Safety Considerations for Indian Traffic Conditions” by Dr. K. V. R Ravi Shankar, NIT Warangal.

HoD – Dr G. Subba Rao introduced the speaker to the students, Dr. A Mahesh Babu, Professor has spoke few words on the webinar and thanked the speaker for his acceptance of the webinar. The speaker has vast experience in Transportation Engineering and guided many research scholars.

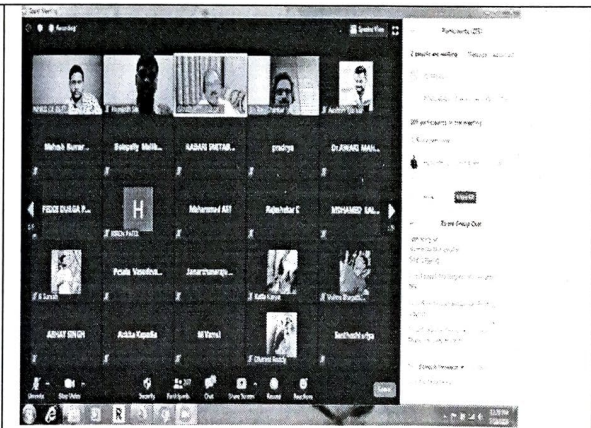

The speaker has started the session with a presentation about the safety guidelines that are to be followed by the vehicles and pedestrians at different junctions, Cross Sections, etc.. The main theme of the topic is for the Indian traffic conditions. The speaker has shown different case studies and shown few videos where the traffic problems arises and he has also explained the solution for the problem where it is raised due to traffic.

Traffic Engineering plays an important role in building the Nation in all aspects which covers all the disciplines in the society. The speaker enlightened the advances in road safety considerations and asked the students present in the webinar to take care while driving on the road.

Around 240 participants have attended the session and at the end, the HoD thanked the speaker for his valuable session which is outstanding and the vote of thanks is proposed by Mr S. Hemanth Sai, Asst Professor and the session ended.
