**A report on National Level Webinar on
Applications of STAAD Pro V8i**

The Department of Civil Engineering has conducted a National Level Webinar on Applications of STAAD PRO V8i in association with CANTER CADD India Pvt Ltd. On 25/09/2020. Mrs P. Sangeetha Sharma, Branch Manager accepted our request to organize this webinar to share the knowledge to the B. Tech Civil Engineering Students about Staad Pro V8i and its importance in Civil Engineering.

HoD – Dr G. Subba Rao has introduced the Mrs P Sangeetha Sharma and Mr S. Hemanth Sai, Asst Professor has introduced the speaker Mr. P. Sai Charan, Trainer in Canter Cadd India Pvt Ltd.

The speaker has started the session with a presentation showing the commands that are used for analysis using this software. The speaker has enhanced the structural elements, load combinations, various codes used for construction and analysis, types of load combinations, joints and other structural related points that are used as input for the software to analyse any type of structure.

The applications of Stadd Pro V8i are briefly explained by the speaker by showing a few examples of the analysis of multi storey buildings to the students. At the end of the session, few students has raised queries and the speaker has answerwd them in the Q&A session. The Dept of Civil Engineering thanked the speaker and Mrs P Sangeetha Sharma for accepting the invitation and sharing the knowledge to the students through online.
