Report on One-Day Guest Lecture on Resume Building

The banner features the Nalla Narasimha Reddy Group of Institutions logo and name at the top left. The main title 'ONE - DAY Guest Lecture on Resume Building' is prominently displayed in the center. To the left of the title is an illustration of a resume document with a pen. To the right is a graphic with the text 'Build Your Future One Resume at a Time' and an icon of a person climbing a bar chart. Below the title, the resource person is listed as Kurthy KBM, HR Career Architect at Seven Tech IT Solutions. The date is 05-09-2026 and the venue is MBA Seminar Hall. Accreditation logos for NAAC and NBA are shown in the top right corner.

Title: Resume Building

Date and Duration: 05-09-2026

Venue: MBA Seminar Hall

Introduction

The Department of Data Science organized a guest lecture on “**Building Resume**” with the objective of helping students understand the importance of preparing an effective and professional resume. The session focused on equipping students with the essential skills required to present their academic qualifications, technical skills, achievements, projects, and other relevant experiences effectively to prospective employers.

Objectives of the Programme

The major objectives of the guest lecture were:

- To create awareness about the importance of a well-structured resume.
- To explain the essential components of a professional resume.
- To guide students in presenting their academic and technical skills effectively.
- To help students avoid common mistakes while preparing a resume.
- To provide guidance on tailoring resumes according to job roles and industry requirements.
- To improve students' confidence in applying for internships, placements, and job opportunities.

SCHOOL OF ENGINEERING

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING – DATA SCIENCE

Session Details

The resource person explained the structure and purpose of a resume and highlighted how a resume creates the first impression on recruiters. Students were guided on how to prepare important sections such as career objective/profile summary, educational qualifications, technical skills, projects, internships, certifications, achievements, extracurricular activities, and personal details.

The speaker emphasized that students should keep their resumes clear, concise, professional, and relevant to the position they are applying for. Practical suggestions were provided on selecting appropriate formats, using professional language, maintaining proper alignment, and highlighting relevant skills and accomplishments.

The session also covered common resume mistakes, including grammatical errors, unnecessary personal information, lengthy descriptions, inconsistent formatting, and listing skills without sufficient knowledge. Students were encouraged to regularly update their resumes as they acquire new skills, certifications, projects, and experiences.

Interactive Session

The lecture was interactive, with students actively participating in the discussion and asking questions related to resume preparation, placement requirements, project presentation, internships, certifications, and technical skills. The resource person provided practical guidance and suggestions to help students improve their resumes.

Outcome of the Programme

The guest lecture helped students understand the importance of creating a professional resume and presenting their strengths effectively. Students gained practical knowledge about resume structure, content selection, formatting, and customization according to job requirements. The session also motivated students to continuously develop their technical and soft skills and maintain an updated resume for future placement and internship opportunities.

Conclusion

The guest lecture on “**Resume Building**” was successfully conducted and proved beneficial to the students. The session provided valuable insights into professional resume preparation and helped students understand how to effectively showcase their qualifications and skills to potential employers. The programme concluded with a vote of thanks to the resource person, faculty members, and students for their active participation and support.

A total of 120 **IV-Year CSD** students actively participated in this lecture.

EXPERIENCE / INTERNSHIP

Data Science Intern
6-Week Data Science Foundation Program with Industry Internship (Jan 2025 - Jul 2025 @ 20000/- Monthly)

- Assisted in the end-to-end data analysis and machine learning project lifecycle.
- Cleaned, preprocessed, and analyzed structured datasets using Python (Pandas, NumPy).
- Built and evaluated ML models (logistic regression, classification) using Scikit-Learn.
- Created data visualizations and dashboards using Power BI, Tableau, and Seaborn.
- Performed exploratory data analysis (EDA) to derive actionable business insights.
- Wrote SQL queries to extract and join data from relational databases.
- Documented model performance metrics and prepared project reports.
- Used AI tools to improve coding efficiency, debugging, and productivity.

DATA SCIENCE PROJECTS

- Customer Churn Prediction Model
Built a classification model to predict customer churn using Logistic Regression and Random Forest.
