Report on What next after B.Tech?

DATE:08/07/2026

Aim: To understand the importance of developing skills beyond technical engineering knowledge, including communication, leadership, innovation, and career planning, for long-term professional success. This report aims to provide a road map that helps engineering students and professionals build the competencies, mindset, and strategies needed to excel in a competitive and evolving world.

The Departments of Civil Engineering, organized a Guest Lecture on "**Beyond Engineering: Road Map to Success**" by involving Electronics and Communication Engineering (ECE), and Computer Science and Engineering – Data Science (CSD) on 29th July 2026 in association with ADDA 24/7. The session commenced at 11:10 A.M. and the student participants are from CE (75), CSD (82) and ECE (40) and 197 altogether.

A guest lecture on "What Next After B.Tech?" was conducted on 8 July 2026 at the Conference Hall. The session was delivered by Prof. Bobby MC Cloud, who guided students on the various career opportunities and higher education options available after completing B.Tech.

SCHOOL OF ENGINEERING

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING – DATA SCIENCE

The keynote speaker, Prof Boyy MC Cloud, addressed the common challenges faced by engineering students while choosing a suitable career path after graduation. He emphasized the importance of identifying individual career goals and making informed decisions to achieve long-term professional success. He also provided valuable insights into various competitive examinations such as Staff Selection Commission (SSC), Railway Recruitment Board (RRB), Banking Examinations, and other recruitment opportunities offered by Central and State Government organizations. Furthermore, he elaborated on the diverse technical and non-technical career opportunities available for engineering graduates, particularly in the field of Civil Engineering.

Speaker Prof Boyy MC Cloud enlightening the career opportunities to the participants

Feedback has been given by a couple of students and the presentation was evaluated with a score of **7.5 out of 10**, reflecting a favourable overall response and indicating opportunities for further enhancement. Students appreciated the session, commenting that it was good, informative, useful, and provided valuable insights about the career opportunities after graduation

Finally, Ms.Sreeya from CSD department, proposed the vote of thanks by expressing gratitude to the resource persons, faculty members, and students for their enthusiastic participation and contribution towards the successful conduct of the event. The programme concluded at 1 PM.

Outcome: The session enhanced participants' understanding of the importance of combining technical expertise with essential professional skills such as communication, leadership, and strategic career planning. It also provided valuable insights into diverse career opportunities, including employment prospects in Central and State Government sectors, enabling participants to develop a comprehensive road map for achieving long-term professional success beyond engineering.

The speaker explained different career pathways, including pursuing higher studies, preparing for competitive examinations, entering the IT and core industries, and exploring entrepreneurship. He also emphasized the importance of developing technical skills, communication skills, and continuous learning to succeed in a competitive environment.

The session helped students gain awareness of the opportunities available after graduation and encouraged them to plan their future careers based on their interests, skills, and goals.

The guest lecture was informative and interactive, providing valuable guidance to students in making informed decisions about their careers after B.Tech.

A total of **130 III-Year CSD** students actively participated in this **Guest Lecture**.
