Report on Public Speaking Activity: "Youth Power India in 2047"

A Public Speaking Activity on the theme "**Youth Power India in 2047**" was successfully organized on 24 April 2026 for the students of CSM A at NNRG. The event aimed to inspire students to envision their role in shaping India's future as the nation approaches its centenary of independence.

The programme commenced with an introductory address by **Dr. I. Sirisha**, Professor of English and Convener of the Public Speaking Club. She emphasized the importance of youth participation in nation-building and encouraged students to develop clarity of thought, confidence, and effective communication skills. She also highlighted that the youth of today will be the driving force behind India's progress in areas such as technology, innovation, sustainability, and leadership by 2047.

The activity was conducted as a public-speaking session, with students delivering individual speeches on the given theme. The participants expressed thoughtful, visionary ideas about India's future, focusing on technological advancement, economic growth, social equality, environmental responsibility, and global leadership. Many students emphasized the role of education, ethical values, and innovation in transforming India into a developed nation.

The session witnessed enthusiastic participation, with students presenting their ideas with confidence and clarity. The activity not only enhanced their public speaking skills but also encouraged them to think critically about their responsibilities as future citizens of the country. Overall, the event was highly engaging and successfully motivated students to contribute meaningfully to building a progressive and empowered India by 2047.

Dr. E. Chandra Shekar, Head of the Department of Humanities, presided over the gathering, with the Faculty of English in attendance.
