

Guest Lecture by Prof M L Saikumar on 24-08-2024

On 24-08-2024, as part of the Induction program for the first-year students of the 2024-25 batch, a guest lecture was delivered by Prof. M L Saikumar, a Professor of Computer Science and a motivational trainer, in the 3rd Floor Seminar Hall. The topic of the lecture was "Time Management," which was informative and encouraging for the first-year students who had just started their professional education. All the first-year students attended the program and actively participated in the interactive session, overcoming their inhibitions and stage fear due to the motivating message they received.
