Report on
INNOVATION DAY

School of Pharmacy in association with Institution's Innovation Council (IIC), NNRG has organized the "Innovation Day" on the eve of Honourable Dr. A. P. J. Abdul Kalam's birthday on October 15th, 2022 at Conference Hall, NNRG from 10:00AM-1:00PM for B Pharmacy students.

A Pharmaceutical Engineer by Education, an IP Consultant by profession and an Innovation Practitioner by passion Mr. Ranjith Reddy Kondeti has attended as a resource person. The speaker has explained briefly about Innovations importance in science and technology. He has explained about the difference between Innovations and Inventions to the students. He emphasised on types of Innovations and their advantages with suitable examples. He explained about the research done by the 'Missile Man' Dr. A. P. J. Abdul Kalam and his research in Life sciences especially in medical devices at NIMS, Hyderabad. He also has explained the different areas of IPR like Patents, Copy Rights, Trademarks, Geographical indications, Industrial design etc., with examples. He accentuated the importance of having a IPR right to an individual in growing competitive world. He advised the students to take up the problems faced by the society and try to find out a solution and asked them to take "Think beyond the Box" as the take home message.

150 candidates including Faculty and Students of B Pharmacy were attended the sessions.
