REPORT ON
Challenges and Opportunities: Navigating the Implementation
of NEP - 2020

Department of Electronics and communication Engineering in association with Institution's Innovation Council (IIC) Cell has organised and conducted a one-day faculty development program on 10th April 2024 at ECE Seminar Hall NNRG from 11:00AM - 4:00 PM for ECE Department faculty.

Dr. S. Ravi Chand, Head of ECE Department acted as a resource person, explained about "Navigating the Implementation of NEP 2020" and emphasized the importance of teacher training and continuous professional development. Ensuring that all teachers receive adequate training to implement new pedagogical methods, assessment techniques, and technology integration will be a significant challenge, especially in remote and rural areas. The policy advocates for the integration of vocational education and experiential learning opportunities into mainstream education to enhance employability and entrepreneurship skills. Strengthening vocational education pathways can provide alternate career options and reduce unemployment rates. Overall, while implementing NEP 2020 poses several challenges, it also presents opportunities for transformative change and improvement in the Indian education system, ultimately aiming to make education more inclusive, holistic, and responsive to the needs of the 21st century

The session concluded that the rich heritage of ancient and eternal Indian knowledge and thought has been a guiding light for this Policy. The pursuit of knowledge (Jnan), wisdom (Pragyaa), and truth (Satya) was always considered in Indian thought and philosophy as the highest human goal. The aim of education in ancient India was not just the acquisition of knowledge as preparation for life in this world, or life beyond schooling, but for the complete realization and liberation of the self. The rich legacies of Indian education system to world heritage must not only be nurtured and preserved for posterity but also researched, enhanced, and put to new uses through our education system.

The event started with the formal inauguration by Dr. Janardhana Raju, Convenor of IIC Cell NNRG. Total 35 teaching faculties participated in the program.

The event was concluded with the remarks by Dr. Janardhana Raju, Convenor of IIC Cell NNRG.
