

INDUSTRY INSTITUTE INTERACTION CELL (IIIC)

FUNCTIONS OF IIIC

The Industry-Institute Interaction Cell (IIIC) has a wide range of activities that aim to bridge the gap between academia and industry.

- 1. Industrial Visits:** Organizing visits for faculty and students to gain practical insights.
- 2. Internships, Training Programs & Workshops:** Upgrading faculty & student skills and making them industry-ready.
- 3. Out-Reach Programs:** Sharing knowledge with nearby schools/colleges on current trends and technologies.
- 4. Event Organization:** Assisting inter-departments in organizing workshops, conferences, project exhibitions and hackathons with help and support of industry partners.
- 5. Expert Talks & Guest Lectures:** Inviting industry experts for talks/lectures and curriculum development.
- 6. Centre of Excellence (CoE):** Establishing CoE centers to promote research and development.
- 7. Consultancy :** Extending Industry mentors support for executing projects and further exploring the consultancy support.

Benefits

1. Enhanced industry-academia collaboration
2. Practical exposure for students and faculty
3. Skill development and upgrading
4. Networking opportunities
5. Career guidance and mentorship
6. Promotion of research, innovation and entrepreneurship

By implementing these activities, the IIIC can play a vital role in preparing students for the industry and fostering innovation and research.
